Two weeds which heretofore have

existed in but a very small way in the district tributary to Calgary, glass evidence of making the weed problem even more vexing than at present, unless prompt effective measures are taken toward their eradication. The weeds in question are Blue Lettuce and Perennial So Thistle. Both are perennial and both exhibit the characteristics of commencing growth in small patches and gradually choking out all other vegetation as they spread. In various parts of the province these two weeds have developed to the extent of causing enormous losses yearly. Prompt action and persistent effort will save the farmers of this locality from the unhappy experience of those

Farmers are urged to report outbreaks to the Department of Agriculture at Edmonton, or to E. W. Brunsden, Field Supervisor, 627 11th Ave. West, Calgary, and to co-operate in delivering the district from a further epidemic.

The Blue Lettuce plant is a deep rooted one, growing from two to three feet high. The whole plant is smooth and covered with fine bloom, filled with a milky juice. The lower leaves are deeply notched at the base, are lance-shaped and terminate in a long oval pointed tooth. Upper leaves are long and lance shaped but differ from the lower leaves in that they are but very slightly notched. Flowers appear at the top of the plant and are a pale blue in color.

Perennial Sow Thistle is often confused with False Dandelion. Common Sow Thistle and Prickly Lettuce. It is a tall coarse growing weed and when found in grain crops will grow to the same level as the crop. The plant carries heavy underground root stems. The stem of the plant is hollow and branches profusely at the top. When broken it exudes a bitter milky juice. Leaves are up to 12 inches long, pointed, deeply cut with segments pointing backwards, slightly prickly. Entire plant is a deep green color and is covered with soft spines. Flowers are bright yellow and somewhat resemble the common dandelion.

The next meeting of the Serviceberry District Association, U.F.A. and U.F.W.A. will be held at Nightingale on August 16th, together with the Nightingale Horticultural Show. The speakers will probably be a member of parliament and a member of the provincial government.

The death took place in Toronto, of Mrs. William Gray, beloved wife of William Gray, Strathmore. The remains were interred in the Toronto cemetery. The sympathy of the district goes out to Mr. Gray in his sad bereavement.

— o —

MACKENZIE

A cable has been received from Scotland of the death of the infant son of Mr. and Mrs. John Mackenzie. The sincere sympathy of all goes out to Mr. and Mrs. Mackenzie in their great loss.

Rockyford Locals

Mr. and Mrs. A. G. Hill and daughter returned from a two weeks vacation visiting Mrs. Hill's parents in Edmonton.

Mr. and Mrs. H. E. Hingworth are on a two weeks vacation visiting Calgary, Edmonton and Banff.

Mr. L. L. Ploches has had a telephone installed at the oil house south of the Home Elevator, where he is handling North Star Oil. Phone No. 11 if you have occasion to call.

The gentlemen's handicap tennis tournament has been played to send finals. Mr. Rattenbach, Gillespie and Katterhagen reaching that position. The finals will probably be played this week.

The local tennis club sent representatives to Drumheller last week, where they won three games out of five, placing them in a position where they had to play Calgary in order to get into the semi-finals in the Southern Alberta Tournament. They played on with Calgary Sunday, early morning to get two out of five games, thereby being eliminated from the finals. The local players were good, but Calgary was a little too strong for them.

We regret to report the death of Mrs. Fred Johns, who died on Thursday afternoon last at Spokane, Wash. The cause of death was pneumonia. The district officers in sincere sympathy in this sad bereavement.

The Union Church Sunday School held a picnic at the Rockwood picnic grounds last Tuesday. A very good crowd was in attendance, and all agreed that they had the finest time ever.

Dr. and Mrs. M. E. Tiffin are at present spending their vacation at Banff, and expect to return about the end of the month.

Miss Graham, of Provost, is visiting Mrs. Jas. Black.

Has anybody noticed the latest addicts to the golf habit? You've guessed them all, this.

In reflection of an error in last week's issue, Mrs. Norman, Yorktown is visiting Mrs. Fred Hunter, of Rockyford, not Mrs. Taylor.

A little excitement was caused on Saturday evening last, but the Rockyford fire brigade was on the spot.

Rev. C. E. Rogers and family are away on a two weeks vacation. The following laymen will conduct the services during his absence: first Sunday, C. S. B. Latt, Strathmore; second Sunday, Rev. Marc, Calgary; third Sunday, Mr. Sutermeister, Strathmore.

Mr. and Mrs. Douglas Horn, and Amos Canon, of Dartley, Alta., have been visiting the Cannuarts for a few days last week.

Mrs. W. O. Brown's mother, from Sterling, Col., is at present visiting her daughter.

Mrs. Belts, of Poncha, is visiting her sons, Ralph and Verne.

Mr. and Mrs. L. Douglas Horn, and Mr. and Mrs. L. Schaefer are visitors at the Jess Anderson farm at Millet.

Quite a few Rockyfordites and Tupperites visited the Strathmore State Fair last Wednesday.

Weather & Crop Report of the West

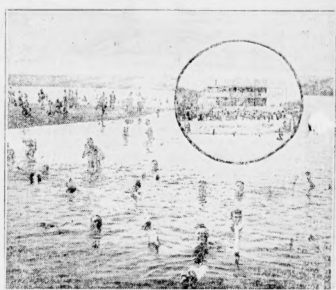

WINNIPEG—During the week the weather has been variable, the earlier portion being cool and dry in case of the prairie provinces, turning much warmer towards the end of the week. Local rainfalls have been experienced in many sections and affords much relief. Crops generally are from ten days to two weeks behind average year. Cattle receipts at the stock yards continued heavy, well finished stock bringing fairly good prices.

MANITOBA—Weather during the first portion of the week was dry and cool, turning much warmer toward the weekend. Heavy rains fell generally over the province, greatly improving prospects. The general outlook is now decidedly more encouraging, grain heading out normally and in many cases attaining normal height. The province gives promise of an average crop. Hay yield light, though alfalfa will be very satisfactory.

Rye harvesting has commenced at few points and is a fair crop. Frost did some damage to garden truck and at Detroit, Emerson subdivision it killed off all the buckwheat within a two mile radius.

SASKATCHEWAN—During the week a fair amount of moisture fell over southern portions of province and conditions generally are good except for portions of the southeast which are still in need of more moisture. Northern and central Saskatchewan did not experience sufficient rain to benefit to any appreciable extent, with result that the major portion of crops in this territory have depreciated anywhere from 25 to 50 per cent. and best of growing conditions will have to prevail for balance of season to assure a crop of even these proportions. Even in these districts there are some good fields of grain to be seen, particularly in northeast. Hail was responsible for 25 to 75 per cent damage to crops in the Assiniboia district at Vancouver, also at Limerick, Kincaid, Hazenmore and Scotland, latter points on Shaunavon subdivision total acreage affected comparatively small.

ON THE BEACH AT MANITOU

LONG before the paleface came to the beach and rolling prairies, the Red man knew and appreciated the curative properties of Little Lake Manitou, which is located near Watrous, Saskatchewan, on the main line of the Canadian National Railway.

And the first white settlers who came, in advance of the railways, to settle on their homesteads, and around Watrous, soon learned of this lake with its highly mineralized waters, so that Little Lake Manitou had its reputation made when the first settlers reached the country. Today thousands of residents of prairie cities find Little Lake Manitou an ideal watering place, and excursions are run from time to time over the Canadian National Railways from Saskatoon and other cities to provide citizens with a means of reaching this delightful spot.

The waters of Little Lake Manitou are so highly mineralized that the swimmer finds no difficulty in floating on their surface and at the same time their mineral qualities are health-giving in their action. With a good sandy beach for the kiddies to play on, and water, chairs and other enjoyment features erected for their entertainment, Little Lake Manitou has become the ideal picnic spot for the dwellers in the central region of Saskatchewan.

Alberta—Outlook in Alberta has greatly changed since last report. While rains have been more or less general throughout the province during the week, these arrived too late to be of material benefit to any sections in the east central and north eastern portions. In parts of southern Alberta crop condition is considered very critical, crops in territory east of line drawn south and north through

Tabor from main line to boundary is practically a failure, except around Milk River and Couta, west of this line crops improve, but are in need of moisture. It is estimated that crops in Southern Alberta will be 33 per cent or less below last year, depending upon rains from now on. Balance of province yields will be light and straw short. 25 per cent. hail reported in the Acme district over four square miles of crop.

The well equipped and modern plant of the Strathmore & Bow Valley Standard can fill your Job Printing orders on short notice at reasonable prices. Mail and phone orders given special attention.

On Parliament Hill

OTTAWA—Hansard is now reaching page 5400 at a cost of somewhere between \$50 and \$100 per page, and still the tide of talk continues despite the efforts of the Government in being speedily getting by with it or late hour sittings and a minimum of talk from the government side of the House.

The main obstacle to quick winding up of the business of the session lies in the opposition of the so called "singer" group representing the more radical element of the Progressive who recently broke with their leaders, Robert Forke, and of half a dozen of the Conservative Opposition anxious to make some political capital before the session closes and led by the champion of common law abuses, Francis, Mr. Henry Forke. This week when the Government, with a view to hastening the work proposed, Saturday's sitting adjourned was taken from the Conservative benches on the ground that Saturday the 23rd was sacred to the glorious memory of King William and a number of the Opposition had prior engagements to speak at Orange celebrations. After a brief debate which at a time increased to become somewhat heated and in which members from Quebec, particularly pointed out that arguing from similar ground there was no reason why the House would not adjourn also on St. Patrick's Day and St. Basil's Day the Government allowed the motion to be amended to start morning sittings on Monday of the coming week instead of beginning on Saturday. Provision, however, is in effect, unless the debate on the Redistribution Bill and possibly also on proposed legislation to reimburse Home Bank depositors is unduly protracted, the end of the present session of Parliament will come within a week or ten days.

LEGISLATIVE CRIST GOING THROUGH

Meanwhile the Government has been steadily putting through the balance ample time for discussion but sticking of the session's programme, allowing to its gaze in respect to all necessary legislation. The Bank Act amendments including the major proposal for government bank audit through an independent government inspector, the Civil Service Superannuation Bill, a much needed measure providing for superannuation of veteran employees, and paying the way for a thorough reorganization of the service; new trade treaties with Belgium and Finland giving Canada "most favoured nation" treatment with those countries the final stages of the Church Union Bill and bills providing for the establishment of advisory boards dealing with tariff and taxation revision have been passed during the past week. In addition to this a considerable proportion of the remaining estimates for the coming year have been put through, and a number of minor bills have been passed on to the Upper Chamber.

HOTEL SCRIBE PURCHASE JUSTIFIED

The Committees of the House, today the banking, private bills and ways and pensions committees have practically concluded their work. On Thursday the committee which has been considering the estimate for the Canadian National Railways presented its final report recommending the passing of all the estimates for the Canadian National System, declaring that the evidence showed economical and efficient management and suggesting all possible co-operation between the Canadian National and Canadian Pacific systems to avoid duplication and unnecessary competition. One paragraph of the report, referring to the purchase of the Scribe Hotel in Paris. The conclusion of the committee was

that European headquarters of the Canadian National had been purchased at a reasonable price and that no loss would ensue from the bargain made by Sir Henry Thorne. In this connection it is interesting to note that the facts disclosed completely nullify charges made by the Opposition as to graft or scandal in connection with the purchase. The Ottawa Journal, which is wont to seize every opportunity for attack upon the Government in an editorial summary of the evidence in regard to the purchase of the Hotel Scribe, declares "the property seems to be worth the money. All that Sir Henry Thorne has done in Paris is to secure first-class quarters for the Canadian National Railways office at a cost which may be considerable but cannot be excessive."

THE WEMBLEY EXHIBITION DELEGATION

A mild flurry has been caused in the House on a vote of twenty thousand dollars to send an official delegation of members of Parliament and representative newspapermen to the British Empire Exhibition at Wembley. The sending of this delegation, which, a few years ago, when economy was not a first consideration of government, would never have been such a matter of serious criticism has been seized upon by the Opposition as an example of great extravagance by the Government. As a matter of fact there will be only three members of Parliament, namely, the Chief Whip and Assistant Whip of the Liberals, the Chief Whip of the Progressives and four newspapermen sent to Wembley at the country's expense involving a total expenditure of not more than \$7,000. Chief Conservative Whip Ross would have gone as a member of the parliamentary delegation but for personal reasons, as he explained to the House. The discussion in the House, excepting several hours of time cost the country probably considerably more than the \$7,000 involved in the sending of a representative delegation on the greatest exposition ever held of Imperial resources illustrative to the Empire opportunities for inter-Imperial trade and development.

RECIPROCITY WITH UNITED STATES POSSIBLE

The proceedings of the Democratic convention in New York have been followed with keen interest on Parliament Hill, it being recognized that the coming election in the United States is fraught with the most vital interest for the people of Canada. Reference to it was incidentally made in the Commons on Thursday when Arthur Meighen, Minister of Finance, declared that the Government was following the course, that if the Democrats succeed in regaining office there would follow a lowering of the tariff bars with a renewed opportunity for acceptance of the standing of the present Canadian Government for a reciprocal trade agreement opening the United States markets to Canadian cattle and other farm products.

TORY ESTIMATE OF PROGRESSIVES

One other illuminating event of the week was the speech made by the typical Tory, Senator Rufus Pops, at a Conservative meeting in Quebec. His contemptuous reference to the money from Western Canada "these poor devils they never had \$4,000 a year in their lives and they are going to stick in their noses. Why should they not? Better get \$4,000 a year at Ottawa than \$1,000 a year on the Prairies."

THE PIONEER MEAT MARKET

A "cool meal" on a warm night is relished by most everybody. Such Meats as Pork or Ham, sliced cold, are really delightful and nourishing. These and others are included in our "Cold Meat Specials" daily.

SAY THAT THEY HAD A POOR MEAL HERE, DID YOU?

But you have heard people a-plenty boost our restaurant, have you not?

We're trying to make our restaurant better all the time—even though most people who are familiar with it think that this is unnecessary.

King Edward Hotel & Grill

To Insure or Not to Insure—that is NOT the question.

In these days of enlightenment, insurance is a recognized necessity.

The question is how to insure.

A very important part of our insurance service is the inspection of individual property risks and advice on how the various available policies should be used to cover them adequately.

Ask us how to insure. Our advice is practical and our policies are sound.

GROUND BY-ELECTION
The by-election to fill the vacancy in the seat for Ground in the Provincial Legislature, was held this week, resulting in the election of L. G. Goss, Liberal, over James Cullen, Farmer candidate. The riding has been represented by a Liberal since its inception.

This way clever women resist the years

The simplest beauty secret known—but the most effective

Every day you see women well along in years, who still retain the charm of youthfulness, lovely skin. They are not unusually fortunate—just clever enough to resist the years!

They know and follow a simple method, which you may employ as successfully as they do. This tells you how.

Authorities advise this: Cleanse the skin regularly, and

thorities say, to keep your complexion lovely, radiant, youthful. But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rise again.

Then—! Skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way a

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive.

Be sure you get Palmolive Soap—which is never sold unwrapped. All dealers have it. Then try this method. Watch the improvement in your skin.

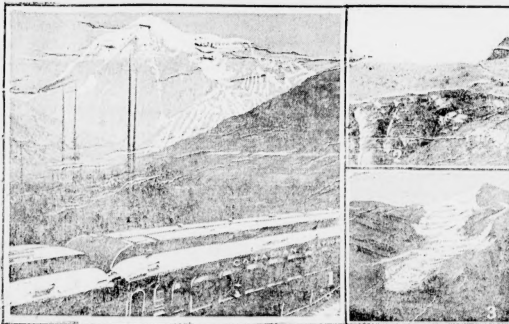

It is very economical. So let Palmolive do for your whole body what it does for the face.

THE PALMOLIVE COMPANY OF CANADA, LIMITED

Winipeg Toronto Montreal

Palm and olive oils—nothing else give Nature's green color to Palmolive soap.

WHERE MIGHTY RIVERS ARE BORN

FROM the snow-capped peak of Mount Robson and other great mountains along the main line of the Canadian National Railway in Alberta and British Columbia, there is a constant trickle of water which, commencing as a small mountain torrent, grows until it reaches the dimensions of a mighty river on its way either to the ocean, to Hudson's Bay, or to interior lakes. Fields of ice, stretching as far as the eye can see, provide the source of many streams which later become large enough to bear

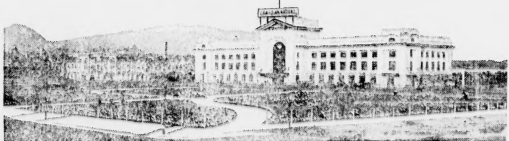

the burdens of commerce from the interior to the ocean outlets to the world.

Mount Robson, which is seen from the trains of the Canadian National Railway, is 13,068 feet high, and the highest peak of the Canadian Rockies. This year the Alpine Club of Canada, numbering among its members the most eminent authorities on mountain lore, held its annual camp at the foot of this monarch of the Rockies, and numerous peaks surrounding the district will be climbed by the hardy lovers of outdoor life.

Canadian National trains stop at the foot of Mount Robson in order that travellers may see this massive peak, towering until it seems to pierce the very sky-line, and scarcely a tourist passes through who does not attempt to get one or more photographic memories of his or her trip.

Photograph No. 1 shows Mount Robson as it appears from the Canadian National Railway train; No. 2, the massive ice masses which lie behind Mount Robson; No. 3, one of the mighty glaciers which feeds the ever-growing mountain streams.

MUDDY CREEK BOTTOM BECOMES BEAUTY SPOT

As object lesson in reclamation is provided by the present Canadian National station grounds at Vancouver, B.C. Before the site was developed the location was known as Faint Creek, a muddy stream in the centre of the city over which the tide water from the bay lapped. It is now one of the

beauty spots of the City of the Lions. The approach to the station is called Thurston Park. In honor of Sir Henry W. Thurston, Chairman and President of the Canadian National Railway, who materially assisted the Parks Commissioners by contributing 10,000 yards of earth for the filling and beautification of the grounds.

Work on the site area is not yet completed but when finished it will be one of the most attractive railway terminals on the continent. At present thousands of flowers are being planted and many hundreds of beautiful shrubs in their attractive planters add their charm.

Regina, Sask.—Saskatchewan's creamery output during the month of May totalled 940,041 lbs., as compared with 844,480 lbs. a like same month a year ago, an increase of 95,561 lbs., according to a statement issued by the provincial dairy commissioner. The cumulative production for the first five months of the current year is 3,322,024 pounds, which compares very favorably with the corresponding period a year ago, when the total was 2,677,016 pounds.

Edmonton, Alta.—Northern Alberta's egg industry is becoming increasingly important. One week's exports recently amounted to 1,000 eggs. Yet only a few years ago Alberta was importing eggs, in some instances from China.

Edmonton, Alta.—Crop conditions throughout the Edmonton district are reported to be exceptionally good. There has been plenty of moisture for crop requirements in most parts according to reports from farmers.

Vancouver, B.C.—Lumber exports from the port of Vancouver amounted to 164,500,000 feet during the first four months of the current year, shipments being made to China, Japan, Australia, United Kingdom, France, South Africa, India, United States and other countries. In comparison with shipments during the first four months of 1923 from the port of Vancouver, total shows an increase of ninety million feet.

Social-Personal

Miss Gibson, of the Union Bank, is said to be spending her vacation in Edmonton.

Mr. A. S. Dawson, Chief Engineer, and Mr. W. P. Rawlings, of the C.P.R. D.N.R. office in Calgary, visited the Strathmore Stampede.

Mr. John Giffin is visiting his father, Dr. Giffin, for a few weeks. John is a keen tennis player and shakes a racket.

Miss Martyn was the guest of Mrs. T. Wright for a few days last week.

Mr. and Mrs. Jas. Saunders have returned from Vancouver, where they spent their vacation.

Dr. L. G. Robinson left on Wednesday for Ottawa, where he will attend a ceremony in which he will play an important part. He expects to return about the middle of August.

Miss Dapley and Mrs. Durbysire, who have been the guests of Mr. and Mrs. W. Knappett, have returned to their home in Vancouver.

Miss N. Barton, of Langdon, is receiving Miss Anderson, of the Telephone office, who is on her vacation.

Mrs. Utley, of Drumheller, is visiting Mr. and Mrs. Parker for a few days.

At the evening service at the Union Church, next Sunday, Mr. Harold Wooten, of Nipawia, and Mr. C. A. Lydall will sing, "Watchman, What of the night?" Mrs. Boward accompanying.

Feeding Meat By-Products in Hoppers to Hogs

The value of organic supplements for hog feeding has been demonstrated in a number of tests completed during the past few years on the Dominion Experimental Farms.

In a feeding test conducted with four lots of Yorkshire hogs, two commercial linings and a commercial meat meal were fed in self-feeding hoppers as supplements to the meal ration which in this instance contained milk as well, while the remaining lot was used as a check in order to determine the economy of feeding these supplements and also the quantity which the hogs would consume.

The test commenced on January 9 and continued for a period of 50 days. Each lot included seven pigs averaging from 41 to 51 pounds in weight. The meal ration for all lots consisted of ground oats, 2 parts; ground barley, 1 part; shorts, 1 part; middlings, 1 part; and linseed oil meal, 2 per cent. The meal was fed as a milk slush in troughs. Each lot of hogs consumed 1710 pounds of the meal mixture and 3222 pounds skinn-milk. Lot 1 was used as the check and did not receive meat by-products, while Lot 2 consumed 2006 per cent. of tankage; Lot 3, 114 per cent. of No. 2 tankage; and Lot 4, 500 per cent. of meat meal.

Lot 1 made slightly the lowest gains as well as the most economical gains followed in turn by the lot on No. 1 tankage, the lot on No. 2 tankage and the lot on meat meal. The average daily gains per hog were 1.05 pounds, 1.06 pounds, 1.08 pounds and 1.09 pounds while the feed costs per pound of gain were 5.23 cents, 5.48 cents, 5.71 cents and 5.83 cents respectively.

The addition of the meat by-products increased the gains but this increase was not sufficiently large to compensate for the increased cost of the ration.

The results further indicate that it is not economical to add as much as 10 per cent. of meat by-products to a well balanced meal and milk ration.

These results agree in principle with those of previous tests in that organic supplements increase gains produced in a given period and also that it is not usually economical to supply these meats in excess of 5 to 6 per cent. of the meat ration.

Dalemead Doings

Well friends—when it comes to counting the Dalemead people certainly know where to go, and that why so many of us are going to Banff this year.

Mr. and Mrs. Hornum and boys left for Banff on Sunday, July 16, and returned on the 17th. They report a most enjoyable trip, having visited all the outstanding places around the resort.

On July 16, Mr. and Mrs. Helen Mr. and Mrs. Wheeler, and Mr. and Mrs. Bob Ellis, and families, left for

Banff, where they expect to stay for a day. They will then continue down the Windermere road, and make a round trip.

Reports from Eastern Canada show that the mercury is still climbing. Now while the hot spell is on maybe some of those Ottawa and Montreal people can be converted to think a little more about the ice in the Hudson Bay, etc.

On July 17th, the ladies of Dalemead and district attended an educational food and cooking demonstration by Miss McIntyre, of Edmonton.

Farmers all over the district are out at full force grading and repairing the roads. It is the best thing they can possibly do because bad roads and the motorists are never good friends. Good roads are the best advertisements for a country.

John Sachse went to Banff on July 18th, and expects to have a good time. He may continue to Lake Louise and other points of interest.

The Junior Camping Committee held their annual meeting on July 17, when an attractive programme was outlined for camping expeditions, which will be held on the 25th at the McKinnon ranch. This is going to be a real treat, so don't fail to come down. Those at the meeting were: Mrs. Brabbin, Nancy Brand, Gladys Coenier, and Jamie Reid.

Slats' Diary

Friday—Jim Nixon and a swifly man
this today when he was a twinkling
to him. He said: Well Jim I
heard you met with
an accident while you
was on your vacation
this yr. Jim answered
& said, Yes sir I did
and we went and got
married nice off.

Sat—I had a narrow
escape while I was cad-
ding up on the golf
link for Mr. White. He
tuck and slammed the
ball with his masher or
his stance or something
and bothered Four. We
was about the same dis-
tance apart from each another and
it came in one of those off of one
ears like that close to me. And
then he went and got sore because
the blame ball was lost.

Sunday—Ani Emma was home
for a spell but is coming back again
later in the future. She told me to
be sure and visit her & she said Now
if you don't run to see me before
I come back I will sign the door in
your face.

Monday—Ma has decided to buy a
new Thorington and chair and a
table and stove carpet and do. Pa
says that just because he works in a
retailing office he thinks that all he
has got to do is wait the selling
price and run off the money as she
uses it.

Tuesday—We are sun new nothings
and he bought a new house and
bused it and brot it on home
and tacked so nice to put that they
was both better fit to kill him. He
went home. Then he got sore and said
That bird is diplomatic stuff to buy
money off a instalment dealer.

Wednesday—We see a circus
parade today and we showed that she
didn't no much about circuses. She
said, It looks like the show men are
very uncommittal because they
six horses to half a couple little num-
bers around over town.

Thursday—We no badly can say
that John and Ma ain't like me
more. Why as little when we was
coming home from the country and
the man Skimners dog run after us
why we run close through the gravel
yard and never that about a speak
our nothings.

Buff, Alta.—Taken from the waters
of Lake Minnewanka here, a trout
that weighed 37 pounds, is now being
mounted by local taxidermists and will
be placed in the Buff museum. It is
42 inches long and 24 inches in cir-
cumference. Many good trout have
been caught in the lake this year but
none as large as this beauty. These
lake trout in the Minnewanka are one
of the mysteries of the Rockies.
It is said to be the only lake in the
mountains harboring this variety of
fish.
